

The [Washington State Sustainable Forestry Initiative Implementation Committee](#) (WA SIC) is honored to recognize the **2023 Exceptional Logging Contractor** for their outstanding commitment to the Timber Industry and the [Sustainable Forestry Initiative®](#): (SFI Inc.)

2023 Exceptional Logging Contractor

T T Timber LLC

T T Timber was recognized as one of four Exceptional Logging Contractors for 2023 at a recently completed job site, as well as at the 2024 Buckley Log Show.

At the age of 77, Elmer Timmons (center) has been a professional tree faller for 55 years, 49 of which subcontracting to Rawson Logging. With a deep understanding of the industry from the perspective of a timber/landowner, Elmer now spends most of his time and expertise on the technical aspect while managing the jobs. He still finds time for cutting but leaves most of that to his son Tom, employee Jeff, and occasional subcontractors.

Elmer is a long-standing member of the board for the Buckley Log Show and continues to serve to this day - 2024 was his 50th show. The show promotes the industry's woods professionals and inspires youth to pursue careers in logging.

TT Timber has been in the QLP program since 1997 with two of the three employees recognized as **Qualified Logging Professionals**, having completed Washington Contract Loggers Association (WCLA) **Master Loggers Program (MLP)**. Their commitment to professionalism in the industry along with a focus on forest stewardship and providing a safe work environment coupled with attention to detail is what makes **TT Timber** an Exceptional Logging Contractor.

Thank you to Alan Kycek with Hampton Resources, Inc. for nominating **TT Timber LLC**.

TT Timber LLC was presented a plaque recognizing their contribution to the timber industry. We would like to thank the [Sustainable Forestry Initiative®](#) for its commitment to insuring a sustainable future. Thank you to the [Washington Contract Loggers Association](#) for implementing and maintaining the Master Logger Program through training and continuing education of Logging Professionals in Washington State.
