

Washington SIC Project Impact Report

Help WASIC quantify its impact to the community by sharing some brief information regarding your funded project or event.

Project or event name and date:

Skagit Teacher Training *Co-Benefits: Ecology, Culture and Economics in Forest Management*
July 15-17, 2025

Describe project or event activities:

Three-day, immersive overnight professional learning experience for Washington 6-12 grade educators led by forestry experts will develop a deeper understanding of natural resources science and management. This training prepares teachers to bring forestry education into your classroom.
